A. The project enrolled 7866 girls for the academic year 1996. This is 12.94% (refer Table 1) of the total enrollment of the whole program. The percentage of girls dropping out from the formal schooling in different grades stood at 10.13% (480 girls) (refer Table 1) from the total dropout figures of the program i.e. 4739 students.

B. The results calculated provide a very dismal position of the enrolment of girls in the higher grades. It is clearly observed that from grade 1 onwards, drastic decrease in the enrolment was experienced. 3637 girls were fortunate enough to be allowed to enroll themselves in grade 1, which is 46.24% of the total enrolment figures for girls. Grade 2 could only enroll 25.86%, which comes to 2034 girls. Grade 3 experiences a decrease of almost 50% and the percentage of girls who enroll themselves in this grade is 13.49% (1061 girls). Grades 4,5 and 6 also show a very steep decline in their enrolment figures with 7.84% (617 girls), 4.60% (362 girls) and 1.97% (155 girls) respectively.

C. An interesting fact that has been observed with regard to the girls schools in general and girls in particular has been their participation in the annual examination. It can be clearly observed that the girls had a far better average of appearing as well as their interest in exams. The percentage of girls who appeared in the 1st grade examination stood at 90.93% which represents a figure of 3307 number of girls. The percentage of girls who continued and appeared in grade 2 examination was 97.20% (1977 girls). A total of 1018 girls in grade 3, which is 95.95% of the girls enrolled, appeared in their final examination. The girls who could make-it to grades 4,5 and 6 had a very impressive participation percentage with 97.89% (604 girls), 95.86% (347 girls) and 85.81% (133 girls) respectively.

D. The pass percentage of girls in grades 1 to 6 has been calculated to be 68.73% (2273 girls) in grade 1, 67.37% (1332 girls) in grade 2, grade 3 had 75.05% (764 girls), grade 4 had a pass percentage of 81.13% (490 girls), 88.75% (308 girls) was observed in grade 5 and in grade 6, 94.74% (126 girls) successfully passed their annual examination. ***It is satisfying to note that the passing percentage in grade 6 is among the highest in all the 265 schools that are being implemented by the project.***

E. The girls who were unable to qualify to the next grades had almost the same percentage as that of the boys. The total fail average among the girls was recorded to be 28.34% (2093 girls) of the total enrolled girls i.e. 7866. The number of girls in grade 1 who could not make it to the next grade was 1034 girls (31.27%). Grade 2 had the highest percentage of failed students with 32.63% (645 girls). Similarly grade 3 had a percentage of 24.95% (254 girls) who failed the annual examination. Grades 4 and 5 had a fail percentage of 18.87% (114 girls) and 11.24% (39 girls). This is followed by grade 6 having only a fail percentage of 5.26% representing just 7 girls.

Peshawar sub-centre is administrating the largest cluster of schools spread over a large area of Peshawar, greater Peshawar and Mardan districts. The schools that are being looked after by this centre are 67 while most of the camps are located in suburbs of major cities of Peshawar and Mardan. The enrolment rate has been recorded to be an average of 288.16 students per school, which is the highest among all the sub-centres. It has been observed that the registration in the junior grades was very encouraging however the dropout rate in higher grades was at par with the other sub-centres. Therefore the point that is important to be noted is that the number of dropouts recorded (1584 students) is very high considering the urban set-up of majority of the schools coming under the jurisdiction of this centre. It would be appropriate for the project to find out the reasons for such a high number of dropouts in Peshawar sub-centre.

A. A total of 21900 students were enrolled by this sub-centre during the academic year 1996-97. The highest percentage of enrollment was recorded in grade 1 which was 38.69% (8473 students). This was followed by 22.38% (4901 students) in grade 2. The breakdown of enrollment figures for grades 3, 4, 5 and 6 were calculated to be 15.19% (3327 students), 10.87% (2381 students), 8.40% (1839 students) and 4.47% (979 students) respectively.

B. Of the total 7.23% (1584 students) that dropped out during the same academic year, 7.77% (658 students) of the total dropped out students belonged to grade 1. Grade 2 has a dropout rate of 5.69% (279 students) while grade 3 has a total dropout rate of 7.75% (258 students). The dropout rate recorded for grade 4 was 7.43% (177 students). At the same time 7.83% (144 students) were recorded to have been dropped out in grade 5. This was followed by grade 6, which had a dropout rate of 6.95% (68 students).

C. The Peshawar sub-centre also had an impressive rate of 92.77% covering a figure of 20316 students who appeared in their annual examinations. The percentage of students in grade 1 who appeared in annual examinations was 92.23% (7815 students). Grade 2 had an appearance rate of 94.31% (4622 students) while 92.25% (3069 students) of grade 3 made themselves available for the annual examinations. The appearance rate of grade 4 stood at 92.57% (2204 students) followed by grade 5 which had an appearance rate of 92.17% (1695 students). Grade 6 recorded the

highest percentage of 93.05% (911 students) of the enrolled students who appeared in their annual examinations.

D. The passed percentage, after the compilation of the annual results, has been recorded to be 69.15%, which represents a passing figure of 14049 students. The percentage of students who passed their grade 1 has been 60.32% (4714 students). Grade 2 had a passing percentage of 69.34% (3205 students). Grade 3, 4 and 5 had a passing percentage of 74.85% (2297 students), 77.81% (1715 students) and 80.41% (1363 students) respectively. Grade 6, as in the other centers also showed a high passing percentage which was recorded to be 82.88% (755 students).

E. The percentage of students who could not make it to the next grade was recorded to be 30.85% (6267 students) of the total number of students who appeared in the annual examinations. Grade 1 again had the highest percentage of 39.68% representing a strength of 3101 students who were unfortunate to fail in their annual exam. Grade 2 had the second highest fail percentage of 30.66% (1417 students). The percentage of students who failed in their exams decreased with each higher grade, hence grade had 25.15% (772 students), grade 4 had 22.19% (489 students) and 19.59% (332 students) were recorded for grade 5. In the end grade 6 had only 17.12% (156 students) who could not make it to the higher grade.

A. Thall sub-centre covered a total of 41 schools with a total enrollment figure of 10344 students. The highest percentage of student enrollment was recorded in grade 1 having a percentage figure of 34.53% covering a student strength of 3572. This was followed by grade 2 having 23.00% (2379 students) enrollment strength. A marked reduction in the enrollment figures was experienced for grades 3, 4, 5 and 6 having a reduced enrollment percentages of 16.41% (1697 students), 11.86% (1227 students), 8.31% (860 students) and 5.89% (609 students) respectively.

B. The total average dropout rate recorded for Thall sub-centre has been 6.48% (670 students) in the academic year 1996-97. The lowest dropout rate was recorded for grade 2 having a percentage of 5.30% (126 students) while the highest dropout rate for any grade was recorded for grade 6 having 8.87% (54 students) of the total students enrolled these grades. The rest of the grades had a dropout percentage of

6.75% (241 students), 6.07% (103 students), 6.28% (77 students) and 8.02% (69 students) for grades 1, 3, 4 and 5 respectively.

C. The respective sub-centre also showed an impressive average rate of students appearing in their annual examinations which stood at 93.52% (9674 students). The students of grade 2 showed the highest interest in appearing for their annual examinations which was 94.70% (2253 students) with grade 3 trailing behind with a percentage of 93.93% (1594 students). Grade 1 and grade 4 had 93.25% (3331 students) and 93.72% (1150 students) respectively who took their annual examinations seriously. Grade 5 had a slightly lower appearance rate of 91.98% (791 students) while grade 6 had almost an equal appearance percentage of 91.13% (555 students).

D. An average pass percentage of 77.14% (7463 students) was recorded against 9674 students who appeared in their annual examination. Of those who passed from their grades, grade 6 had the highest pass percentage of 89.19% (495 students) out of a total of 555 students. This was followed by grade 5 having a pass percentage of 88.37% (699 students). It was again observed that grade 1 had the lowest pass percentage which was 67.97% (2264 students). Grades 2, 3 and 4 had a pass percentage of 77.98% (1757 students), 82.50% (1315 students) and 81.13% (933 students) respectively.

E. Similarly the students failing in their exams has been recorded to the 22.86% (2211 students) of the total number of students that appeared in their examinations. The students in grade 6 had the lowest fail percentage of 10.81% (60) students while grade 1 at the highest with 32.03% (1067 students) who could not make it to the next grade. The students belonging to grade 2 had a fail percentage of 22.02% (496 students) while 17.50% (279 students) was recorded for grade 3. At the same time grade 4 and 5 show a fail percentage of 18.87% (217 students) and 11.63% (92 students) respectively.

A. A total of 7177 students were enrolled in the 38 schools that were looked after by the Timargara sub-centre during the academic year 1996-97. The highest percentage of enrolment of students was recorded in grade 1 with 43.21% (3101 students) while the

lowest enrolment figures were recorded for grade 6 with 5.10% (366 students) out of the total enrolment figures. The number of students who got themselves enrolled reduced by each higher grade i.e. in grade 2 the enrolment figures fell down to 19.14% (1374 students). In grade 3 the percentage was further reduce to 14.55% (1044 students). Grade 4 had a percentage of 10.44% (749 students) while grade 5 had a total enrolment figure of 7.57% (543 students).

B. The dropout rate recorded for this centre was 10.62% (762 students). The highest percentage of students from any grade, who dropped out, belonged to grade 6 having 13.11% (48 students). Similarly grade 1 had 10.77% (334 students), grade 2 had 8.37% (115 students), grade 3 had 11.02% (115 students) grade 4 had 11.62% (87 students) and grade 5 had 11.60% (63 students) who dropped out during their course of studies.

C. The average rate of students appearing in their examinations was calculated to be 89.38% (6415 students) out of a total of 7177 students that were enrolled during the academic year 1996-97. The students appearance rate in the examinations for each respective grade has been calculated to be 89.23% (2767 students) in grade 1, 91.63% (1259 students) in grade 2, 88.98% (929 students) in grade 3, 88.38% (662 students) in grade 4, 88.40% (480 students) grade 5 and 86.89% (318 students) in grade 6.

D. The average pass percentage of students after the compilation of the results was 70.44% (4519 students). The pass percentage of the students increased with each higher grade, thus grade 1 had pass percentage of 63.82% (1766 students). Grade 2 showed an improvement by having 73.95% (931 students) of its total enrolled students to move into the next higher grade. Grade 3 had a pass percentage of 75.13% (698 students) while grade 4 had 78.70% (521 students) who got a move over to the next grades. Similarly grade 5 had a pass percentage of 75.21% (361 students) and grade 6 showed a result of 76.10% (242 students).

E. The respective sub-centre, at the same time, recorded a percentage of 29.56% students who could not make it to the next grade. The breakdown of grades that recorded failed students was 36.18% (1001 students) in grade 1, 26.05% (328 students) in grade 2, 24.87% (231 students) in grade 3, 21.30% (141 students) in grade 4, 24.79% (119 students) in grade 5 and 23.90% (76 students) in grade 6.

A. Comparing the analysis of the annual result percentage for all the grades on sub-centre levels, it is satisfying to know that the average rate of students appearing in their annual examinations was 92.21% out of which 72.11% were successful and were admitted in to the next higher grades. The average percentage of students failing in their examinations was 27.89%. Similarly the dropout rate for the whole project was 7.79% of the total enrolment figures.

B. It can be clearly observed that sub-centre Thall had the highest pass percentage (77.14%) of students passing in their annual examination while Peshawar sub-centre at the lowest figure of 69.15%. The highest students appearing rate was 93.90% among the female centre while Abbotabad had the lowest with 89.35% of the total students that were enrolled during the academic year 1996-97.

C. Analyzing the results of students who failed in the examinations, it is observed that Peshawar sub-centre had the highest rate of failure, which is 30.85% while sub-center Thall at the lowest failure percentage of 22.86%. Similarly female sub-centre had the lowest dropout rate of 6.10% followed by sub-center Thall with 6.48% while Abbotabad sub-centre had the highest dropout figures of 10.65% and Timargara trailing behind with 10.62%.

A. Results compiled for grade 4 for all the sub-centres indicate an appearance rate of 92.39% with a passing average of 79.87%. The average percentage of students failing in their examinations for grade 4 has been calculated to be 20.13%. Similarly the average dropout rate for the same grade during the academic year was 7.61%.

B. Female sub-centre recorded the highest appearance rate of 97.89% and at the same time had the lowest dropout rate of 2.11%. Timargara sub-centre at the lowest appearance rate of 88.38% including the highest dropout rate of 11.62%.

C. Bannu sub-centre had the highest pass percentage of 83.05% for grade 4 while Peshawar sub-centre had the lowest with 77.81%.

A. The average appearance rate for grade 5 for all the sub-centres has been calculated to be 90.95% with a pass average of 82.00%. The average dropout rate for all the sub-centres came to 9.05% with a fail percentage of 18.00% for this grade.

B. Grade 5 of the female sub-centre recorded the highest percentage of appearance rate 95.86% while the lowest was calculated for Abbotabad sub-centre having 85.39%.

C. Female sub-centre again had the highest pass percentage as well as the lowest dropout rate of 88.76% and 4.14% respectively. The lowest pass percentage for this grade was recorded for Timargara sub-centre having 75.21% while Abbotabad had the highest dropout rate of 14.61%.

D. 24.79% of the students in Timargara sub-centre failed in their annual examinations, which is the highest for this grade while female sub-centre at the lowest failure rate of 11.24%.

A. The results and the figures compiled for the academic year 1996-97 for grade 6 on all the sub-centres levels indicate an average appearance rate of 89.45% with 83.70% of the students passing their annual examination of grade 6. The same grade showed a drop rate of 10.55% of the total enrolled students. 16.30% of the students were also recorded to have failed in their exams.

B. It is again clearly observed that female sub-centre had the highest pass percentage of 94.74% while Bannu sub-centre with the lowest could only claim 73.63% of students to have been successful in the annual examination.

C. Peshawar sub-centre had the lowest dropout rate of 6.95% for grade 6 while Abbotabad was with the highest percentage of 15.35%. However female sub-centre had the lowest percentage of 5.26% while the highest was in Bannu with 26.37%.

the distribution and enrolment of girls in various sub-centres of the project, it is clearly observed that with the exception of Bannu and Thall sub-centres, girls were enrolled in the boys schools of the remaining sub-centres except the schools that were coming under the female sub-centre of the project. The figures compiled for girls for the remaining sub-centres namely Abbotabad, Peshawar and Timärgara have been calculated as 3% of the total of the respective sub-centre.

Comparing the gender performance it is observed that the girls had a higher appearance percentage of 93.59% as comparing to boys which had an average appearance of 91.97%. However the pass percentage is the other way around with boys leading at 72.22% and the girls trailing at 71.50% the dropout rate among the boys and girls has been calculated to the average of 8.03% and 6.41% respectively.

Table: 19 Enrolment per school Sub-Centre Level

Sub-centres	Number of schools	Enrolled Students	Students per school
Abbotabad	30	7,558	252.93
Bannu	40	5,959	148.98
Female	40	7,866	196.65

Timargara	38	7,177	188.87
Total	265	60,804	229.45

The enrolment figures of students per schools at sub-centres level has also been calculated which gives an average figure of 229.45 students per schools. The highest ratio of students per school has been recorded in Peshawar sub-centre having an average of 288.16 students per school while the lowest is in Bannu with 148.98 students per school.

Findings and Suggestions

Examinations system

- It has been persistently observed that the annual examinations were conducted in the respective schools by the head teacher and teachers. Since the teaching staff are not properly trained nor are they expert in designing the examination papers, therefore, no standard criteria was adopted for conducting the examinations, thus the results obtained from different sub-centres as well as various schools have a varying degree of results. Hence the first step suggested is to develop a standardized examination system, including the formulation of the exam papers as well as the mode of checking the answers of the students. This should be adopted and implemented in all 265 COPE schools for the academic year 1997-98.

- It is also suggested that if the exams are centrally designed for grade 6 and are conducted by the trained staff, then the quality could be further enhanced and the student of grade 6 would be able to easily get admission in higher classes.

Suggested patterns for examinations

- Four main examinations can be possibly designed for each academic year representing four terms from grade 3 onwards. In the first three term examinations, students can be awarded with a maximum of 20 credits (marks) while the final term examination can have the remaining of 40 credits (marks). This exercise would enable the project to maintain the standard of education and at the same time further increase the pass percentage.

- Similarly for grade 1 and 2, 65% to 75% of credits (marks) can be awarded on monthly or bi-monthly exercises/tests on the basis of their performance and the remaining 25% of credits (marks) can be adjusted in their final examinations. Since the students would be familiar with the tests/exams so they would easily adopt the formal examination exercises in the next higher grades. Thus the students in the primary level would know that their promotion to the next higher grades would depend on their regular appearance in the yearly terms.

Administration

- It has been acutely felt that Peshawar sub-centre covers a large number of schools for which there is one Master Trainer in-charge. The logistics and the number of schools and teachers make it necessary to split this centre into two operational zones. The administrative structure would remain the same but the responsibilities on the operational levels could be distributed for enhanced qualitative results. This sub-centre could be split into Peshawar and Mardan or Peshawar and greater Peshawar with an average of 40 schools each having one MT responsible for each zone without entailing extra financial considerations.

- During the process of Data collection, it was realized that the duties of Master Trainers, Administrators and Community Motivators should be more harmonized so that any future exercise can be more easily conducted.

Annex-I

Data Collection Form

COPE School Annual Examination
Results 1996-97

Community Participation

- After the compilation of the results, it was noticed that wherever the School Management Committees had been established the enrolment had increased and helped the project to brought the dropout rate to the minimum. In the Female sub-centre schools, it is highly felt that the community work and participation should be the top priority for further improving girl's education among the Afghan refugees.

- In Bannu sub-centre, it is highly suggested that female schools along with their management committees should also be established as soon as possible since there are no schools available for girls at present.

School profile

It is also observed that there is no comprehensive computer based school profile. The same should be available for all the COPE schools, this will help in obtaining more agreeable and readily available data for analysis.

Data collection

- On the conclusion of the exercise, the data collection forms were evaluated and the need is felt to improve these forms. Improved forms could be more functional and easy to fill for getting the data of the co-education schools, which were not properly addressed during this exercise.

- Another aspect was the time consumed during data collection, its transmission to the sub-centres and onward delivery to the head office. Similarly feeding of data, its analysis and formulation of the document also consumed a lot of time.

Monitoring / Training

- It is suggested that special modules should also be developed on examinations, which could be utilized during training as well as in regular monitoring of the project's activities.

Foreword

One of the main objectives of GTZ's development policy is to support monitoring and evaluation for the achievement of project goals, objectives, results and activities formulated by the project management and its respective sections. To serve this aim, the Monitoring and Evaluation section of GTZ-BEFARe conducted this survey, which is to inform all high level planners and administrators of UNHCR and COPE about the actual status of Afghan refugee's primary education in the NWFP. Moreover, I hope that this document will be used by the implementers as a tool, which puts them into the position to plan, to run and to evaluate their project in the most efficient way.

I am happy to say that since COPE took over the responsibility for the Afghan Refugee Primary Education in NWFP, the dropout rate decreased, the number of students having successfully passed the exams increased and the total enrolment of girls doubled. On the other hand the findings provoke questions which need a careful and detailed analysis regarding pedagogical, social and educational economic aspects.

That much is certain, refugee children have very specific education needs:
The condition of Afghan refugee students is directly rooted in forced displacement, the deprivation of freedom, separation and the loss of family, home, a way of life and perhaps even of identity. Many struggle through many years in refugee camps and far too often, students are subjected to dangerous and harsh conditions. A high percentage is still suffering hunger, illness and violence to themselves and their families.

That is why the commitment of UNHCR in Afghan Refugee Education is highly esteemed. It is due to the strong support and efforts of UNHCR that refugee children are given the chance to get a proper primary education, as prosperity and quality of Afghanistan will be i.a. determined by the these children and their ability to solve the problems of the future. Education unlocks this ability and the investment in the teaching and learning of Afghan refugee children is a most important precondition for the reconstruction of Afghanistan and his economic development.

Dr. Michael Hirth
Project Manager

Acknowledgements

The nature, situation and variety of the activities of the primary education which are administered all over the North West Frontier Province by the GTZ – Basic Education for Afghan Refugees (BEFARe) required the cooperation, collaboration and coordination of all the experts as well as the auxiliary staff of the project in the collection of the data, transmission, recording and it's subsequent analysis.

This exercise was jointly designed and implemented by the M&E and Formal Education Sections of GTZ – BEFARe.

I would like to express my very special gratitude to Dr. Michael Hirth, Chief Technical Advisor of GTZ – BEFARe, who identified the need for this document. It was his vision, support, encouragement and confidence that enabled M&E section to fulfil this task.

I would also like to acknowledge the contribution of Mr. Taj Mohammad, the Co-ordinator of Formal Education, who organized the field activities for this exercise.

Special thanks to Mr. Mobeen Azizi, who has put in lots of hours in feeding the data into the computer which enabled the M&E section to complete the data processing and its final analysis.

Mr. Askar Azam, Co-ordinator Community Participation, was always available and gave very useful technical guidance and comments. I am indebted for his time.

A very special thanks to Mr. Syed Junaid Shah, who extended his services to M&E section in the formulation and editing of this document.

GTZ – BEFARe would like to express special thanks to all those who contributed in one way or another in the preparation of this document.

It is hoped that this document will help the management as well as the others in planning, implementing and further enhancing the educational activities for Afghan refugees.

Mohammad Rehan Awan
Co-ordinator Data Processing,
GTZ – BEFARe

Objectives and Methodology

The main Objective for the compilation of this document has been to inform the Project Management about the status of the education among Afghan refugee children in the refugee camps of NWFP. The analysis contained in this document may assist the executors, at various levels, as to what necessary steps to take in order to achieve the Project Objectives. Secondly, it can also be used to prepare a baseline for the next year comparative analysis.

In the middle of March 1997, it was decided by the project that the annual results should be collected, on one standard pattern, from all the 265 COPE schools (see Annex - I). This standard form was designed in consultation with the Formal Education section and was later finalised and approved by the Project Director. In March 1997, the forms were distributed to all the schools through the Master Trainers and the group of 40 Field Education Supervisors/COPE School Advisors. The Data collection process was initiated slowly but gradually in April 1997. The figures in the forms were filled in by the teachers of the respective grades and were counter-signed by the Head Teachers and FESs/CSAs. The whole process of collecting data was completed by May 1997. In order to cope and analyse a huge collection of information, a computer based database system was designed by using Microsoft Access for accurate analysis. In June 1997, the initial data entry was completed and a computer printed sheets of the same data was given to the Master trainers for final checking so that any error in the data entry could be eliminated. This exercise was completed July 1997.

After these initial steps, the data was ready for analysis. All the figures were calculated by using Database and Spreadsheet analysis techniques so the accuracy of data could be maintained. Thus for the compilation of these results, percentage techniques of analysis have been used. Wherever necessary the roundup of two (2) decimal has been implemented to bring the figures more closer to reality. All the tables presented in this document are cross-checked with each other and have proven accurate. All the data is sorted in alphabetical order.

For the graphical representations, the data has been used from the same source and with the same accuracy. For this purpose Microsoft Excel Spreadsheet was used to achieve the required results. In most of the tables and especially in table 1, the percentages for enrolled students are calculated from the total of all sub-centres. In other words the figures are representing their share to the total number of enrolled students.

A two-member team of the M & E section of GTZ-BEFARe has prepared this document for the perusal of the Project Management and all relevant Sections / Organizations. The results of this analysis are consolidated in the following tables and manuscript of this document.

Owing mainly to the particularities of culture and being refugees, the level of education in the refugee camps is even lower than the already low national and provincial literacy average. A disparity that is especially critical in the case of females.

However the situation of primary education for Afghans in NWFP since GTZ-COPE took over the responsibilities of implementation is conspicuously identified by the increase in enrollment figures, low dropout rates, reduced absenteeism of teachers and students and the further improvement in quality of teaching and learning.

The figures presented in this document provide us with the basis for future monitoring and evaluations. The results compiled in this document show that a total of **60,804** students were enrolled during the academic year 1996-97. The appearance percentage in the annual examination was **92.21%** comprising a figure of 56,065 students with a passing percentage of **72.11%**. The programme experienced a very minimal dropout of the students during the same year with **7.79%**. The tables below provide a comprehensive detail of the annual results of the schools during the academic year 1996-97.

Table: 1 shows over all annual examination results for 1996-97 in all five operational sub-centres geographically diversified over N-W.F.P. In this table it can be seen that the percentages of each sub-centre are the share of 100%. Details are as follows: -

A. The numbers of enrolled students in the project were 60804. The total number of enrolled students in Abbotabad were 7558, which is 12.43% of the total enrolled students in the program. In Bannu 5959 (9.80%) students were enrolled while in the Female sub-centre 7866 girls students were reported to be enrolled which is 12.94% of the total. Similarly Peshawar had the highest percentage of enrolled figures (36.02%) which covers a total figure of 21900 enrolled students. It should be noted that this centre has the maximum strength among all the sub-centres. The sub-centre in Thall had 10344 enrolled students, which is 17.01% of the total and lasts but not the least Timergara had 7177 (11.80%) enrolled students out of the total 60804 enrolled students.

B. The total number of dropped out students (before examination) was 7.79% (4738 students). In Abbotabad there were 805 students, which is 16.99% of the total dropped

enrollment of students have gradually descended. As per the figures available only 12.25% of the Grade 1 students reach Grade 6.

B. The figures gathered clearly indicate that the dropped out percentage increased with each higher grade. Out of the total 4739 dropped out students, there were 1935 (8.17%) in grade one, 856 (6.21%) in grade two, 722 (7.80%) in grade three, 492 (7.61%) in grade four, 428 (9.05%) in grade five and 306 (10.55%) in grade six. Thus the dropout percentage increased from 8.71% in grade 1 to 10.55% in grade 6.

C. Similarly figures for the appearance in the annual examination also decreased but the over all percentage of students' appearance in the examinations for all the grades was 92.21%. The highest percentage was for the grade 2 having 93.79% and the lowest was in grade 6 having a student appearance of 89.45%.

D. The results compiled after the annual examination show a positive passing percentage of 72.11% of the total 56065 students that appeared in the annual examination., The passing percentage of students from gradel to grade 6 has been 64.48% (14019 students), 72.49% (9369 students), 77.06% (6577 students), 79.87% (4768 students), 82.00% (3526 students) and 83.70% (2172 students) respectively. It is clearly observed that the passing percentage increased with each higher grade, thus if the dropout rate can be reduced it is felt that even more students would be able to complete their primary level education.

E. Calculating the percentage of students who were unfortunate to qualify for the next grade, it was observed that the highest percentage of failed students was in grade 1 having 35.52% (7722 students) of the total percentage of 27.89% of the15634 students who failed in their annual examinations. It is noteworthy to state that the percentage of failed students gradually decreased with each higher grade. The break down of the figures for the remaining grades from grade 2 to grade 6 are 27.51% (3555 students), 22.94% (1958 students), 20.13% (1202 students), 18.00% (774 students) and 16.30% (423 students) respectively.

figures collected from this centre only 6.03% of the Grade 1 students reached Grade 6. This is unfortunately, below the program's benchmark, which is 15.25%.

B. The figures collected indicate that the dropped out percentage also increased with each higher grade. Out of the total 805 students that dropped out, there were 253 (9.58%) in grade 1, 179 (10.14%) in grade 2, 117 (9.83%) in grade 3, 89 (10.561%) in grade 4, 97 (14.61%) in grade 5 and 70 (15.35%) in grade 6. Thus the dropped out percentage increased from 9.58% in grade 1 to 15.35% in grade 6. The only significance in the dropped out rate was in grade 3, which was less than grade 2.

C. As per the calculation of the figures for the appearance in the annual examinations, there was also a decrease in the students numbers but the over all percentage of students appearing in the examinations for all the grades was 89.35% (6753 students). The highest percentage was for the grade 3 having 90.17% (1073 students) and the lowest was in grade 6 having a student appearance rate of 84.65% (386 students).

D. The results of the annual examination show a positive passing percentage of 73.32% of the total 4951 students that appeared in the annual examinations. The passing percentage of students from gradel to grade 6 has been 63.45% (1517 students), 74.78% (1186 students), 78.29% (840 students), 81.43% (614 students), 80.25% (455 students) and 87.82% (339 students) respectively.

E. Coming to the percentage of students who could not make it to the next grade, it was observed that the highest percentage of failed students was observed in grade 1 having a percentage of 36.45% (870 students) of the total percentage of 26.68% (1802 students) of the students who failed in their annual examinations while the lowest was observed in grade 6 have a fail percentage of 12.18% (47 students). The percentage of students who failed in their respective grades is 36.45% (870 students) in grade 1, 25.22% (400 students) in grade 2, 21.71% (233 students) in grade 3, 18.57% (140) in grade 4, 19.75% (112 students) in grade 5 and 12.18% (47 students) in grade 6.
